Tvheadend - Bug #1506

DVR autorec schedule

2013-01-08 12:22 - Giovanni Borri

Status:	Rejected		**Start date:**	2013-01-08
Priority:	Normal		**Due date:**	
Assignee:	Adam Sutton		**% Done:**	0%
Category:	PVR / DVR		**Estimated time:**	0.00 hour
Target version:				
Found in version:	3.3.274		**Affected Versions:**	

Description
A recording is scheduled.   I deleted the scheduled recording, stop and start tvheadend process.   After restart the recording appear again in the upcoming recording tab.

What did you delete the recording or the autorec rule? Please provide debug log(s) during relevant time periods.

Adam

#2 - 2013-01-08 12:30 - Giovanni Borri

i have deleted the recording,not autorec rule.
The point is that probably the record is deleted and not inserted in failed recording.

When tvheadend is restated it didn't fine episode either in upcoming, either in finished or in failed and it will rescedule it.

#3 - 2013-01-08 12:32 - Giovanni Borri

seems also there is problem in getting recording in the right tab.
I find same failed recording in finished tab.

#4 - 2013-01-08 12:56 - Adam Sutton

That is a known issue, there is a long standing bug report in for that that needs investigating. But I've not had a chance to get to it.

I don't see what the problem is here, you deleted the recording from the schedule without removing the autorec rule so it re-scheduled it (since it matched the rule) that is expected behaviour.

If you're asking for the ability to selectively mark things scheduled by a rule as to be "ignored", then that's an entirely new feature and should be logged as such.

Adam

ok. I'll open a feature request.

thanks
Giovanni

Closing as this is really an FR and a #1508 has been submitted.
