Description

I can't play analog tv-tuner channels on pvrusb2-based card. Playing /dev/video2 with mplayer works fine, but with tvheadend I get the following:

```
oct. 15 22:45:49 [ INFO]:v4l: /dev/video2: Input #0: television (Tuner), audio:0x0, tuner:0, standard:0000000000000000,
