<b>Description</b>			
<p>Hi, the scheduler shows the episode titles and after it was recorded, it has it still in the done jobs table. But after I restart the tvheadend process, all episode data from the finished records are gone. It seems, that the dvr log files for each records don't contain the episode data. I think the dvr_db.c file has a bug, where the code created the log file.</p> <p>Could some one fix it?</p> <p>Thx</p>
