Description			
<p>I have one custom DVR config for a news program (EenVandaag). All other programs use the (default) DVR config. Because I never watch old news I changed the DVR Log retention time in the EenVandaag DVR config to 5 days. But to my surprise ALL my recordings older than 5 days are now deleted (which of course shouldn't have happened, as in the default config the DVR Log retention time is still the old value, 90 days)</p>
