

Tvheadend - Feature #1891

Scheduled recording without EPG

2013-12-27 14:56 - Bodo Eggert

Status:	Fixed	Start date:	2013-12-27
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	PVR / DVR	Estimated time:	0.00 hour
Target version:			
Description			
I'd like to enter recordings by manually specifying channel, start, end and name. Preferably without Javascript, so I can use tvbrowser and some glue code to schedule recordings.

If you want to do this without javascript (i.e. the UI). Then just use [HTSP](https://tvheadend.org/projects/tvheadend/wiki/HTSP#addDvrEntry-Added-in-version-4) (<https://tvheadend.org/projects/tvheadend/wiki/HTSP#addDvrEntry-Added-in-version-4>) that already allows you to enter things manually.

This is (partially?) implemented with the "Time Schedules" tab on the DVR menu.
