

Tvheadend - Bug #1940

new channel api does not return image cache url

2014-01-16 22:02 - Luis Fernandes

Status: Fixed	Start date: 2014-01-16
Priority: Normal	Due date:

Target version:	Affected Versions:
Found in version: master	

Description

If image cache is enabled, the new channel list api does not return it's url - it always returns the actual path inputed, used for editing the field in the web interface.

Probably we need another field returning the image cache url, if it exists.

Hi

Can this be related? this issue still exist:

<https://tvheadend.org/issues/1836>
