Target version:	2.12		

Description

it would be awesome if tvheadend would not record duplicates. in vdr i can choose to check duplicates from epg data. its a really important feature. i am recording about 2 - 3 series a day and when i autorecord in tvheadend not all series get recorded (overlapping times).

this and the other 2 tickets are the last one which could get me finally away from vdr smile.png
