Found in version: 3.9.582~g0e720dc	
Description	
<p>Maybe I'm being thick here, but isn't 'Channel tag only' actually meant to stop access to channels, I've set it up, the usernames match the tags but the user can still access channels they're not meant to.. :/ bug?</p> <p>Could someone test please?</p>

I "think" that Amet only integrated this into HTSP, it was a bit of a hack in lieu of no decent feature. It served a purpose but I will try and make it clear this is not very difficult to get around and doesn't integrate into the UI.
