Description

On the Services tab sorting all the fields except Local Channel Number works as expected.

Sorting Local Channel number seems to do something, but it doesn't sort sensibly

Additionally the number filters don't work either.

Also, aren't they actually called "Logical Channel Numbers" - or is that just UK specific usage (for example see <http://stakeholders.ofcom.org.uk/binaries/consultations/localtv/responses/digital-tv-group.pdf> Page 2 section 1a)?
