

Tvheadend - Bug #233

UDP IPTV stream corruption

2010-06-29 11:41 - Steven VS -

Status:	Fixed	Start date:	
Priority:	High	Due date:	
Assignee:	Andreas Smas	% Done:	0%
Category:	General	Estimated time:	0.00 hour
Target version:	2.12	Affected Versions:	
Found in version:			

Description

I have a problem with a lot of my UDP streams. Most of them are corrupted. If I play them in VLC, they play fine.

I have attached the TS recorded file in tvheadend and I have also attached the wireshark trace.

I am running svn trunk R4974 (but I also had the problem with earlier releases)

This is the debug from the recorded file:

```
[WARNING]:dvr: Output directory for video recording is not yet configured. Defaulting to to "/home/xbmc/Videos". This can be
changed from the web user interface.
[INFO]:CSA: Using SSE2 128bit parallel descrambling
