

## Tvheadend - Feature #2454

### Option to backup settings from WEBUI

2014-11-08 17:45 - Piotr Kuchciak

<b>Status:</b> New	<b>Start date:</b> 2015-11-22
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 100%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 4.6	
<b>Description</b> I postulated to add option to backup settings to one file ( maybe archive or other). This is simple way to restore settings and all after example crash or other.	
<b>Subtasks:</b> Feature # 3337: Utility to save the contents of every active page in every tab to a tex... <b>Rejected</b> Feature # 3659: Backup via Web interface <b>Rejected</b>	

### History

Would like to see this as well.

#### #2 - 2014-11-17 10:12 - Rafal Kupiec

+1. There would be also nice to see the option to restore as well.

+1 from me

#### #4 - 2015-11-10 21:22 - K Shea

+1 from me as well. Really would like to see an easy way to backup and restore the configuration from the WebUI.

This is something I've wanted ever since I started using TVHeadEnd.

#### #6 - 2015-11-23 20:46 - virtual dj

I think you can **tar** the TVHeadend **config** folder so that the whole settings will be backed up (and restored when needed). I use this method on the version that I run on the QNAP NASes.

- Target version set to 4.4

#### #8 - 2018-01-22 20:50 - Mono Polimorph

+1 for me too for this ancient request (and targeted to next 4.4).

However, I like to use it in a different way that the rest of people...

I'll use this function for a "volatile" configuration. I like to "export" one configuration to a file, and use a readonly filesystem with my Raspberry Pi. Then the objective will be to "starting the TVH with the export.config" and store the running configuration in a RAM /tmp directory. So, don't forget to support the loading of the "export.file" in the command-line.

I hope to see this soon! wink.png

Thank you!
