

Tvheadend - Feature #2504

Languages as Tag for channels

2014-11-23 13:28 - saen acro

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Service Mapping	Estimated time:	0.00 hour
Target version:	4.4		
Description			
Add available language as tag for channels as extra option in channel tags			
Subtasks:			
Feature # 298: Channel tags			Rejected

History

#1 - 2014-11-23 13:34 - Meindert Oldenburger

Custom tags can be created easily in the configuration.

#2 - 2014-11-23 13:36 - saen acro

Any chance to be added auto tagging when mapping with available languages?

#7 - 2015-07-11 14:14 - Paolo Roascio

- File *tvheadend-language-tags.patch* added

This is my best, feel free to use this patch. I think it is not the best way, but a base to work on.

Sincerely i don't think that I will present a pull request for this for these reasons:

- often channels have multiple languages then, in clients with poor grouping abilities (kodi?) there are lot of language groups with the same channels (from a big list as yours you can get dozens of groups only a little smaller) and i feel this a confusing way to group them.

- lots of channels (eg. encrypted in my setup) don't have the lang attribute set, so you can miss them in groups.

- coding may be really wrong as i'm not a programmer.

May be this a discussion base for skilled programmers like Jaroslav or Adam?

#8 - 2016-01-25 19:07 - Jaroslav Kysela

- Target version set to 4.4
