

Tvheadend - Bug #2962

Separate string

2015-06-22 10:29 - Piotr Kuchciak

Status:	New	Start date:	2015-06-22

Target version:		Affected Versions:	
Found in version:	4.1.25		

Description

I postulate to separate translation all string one by one.

For example:

String "Channel" is in line:

src/channels.c:287, src/service.c:173, src/dvr/dvr_db.c:2052, src/dvr/dvr_autorec.c:947, src/dvr/dvr_timerec.c:582

and it is in one translation.

I suggest to separate this to 5 translation separate because in every content can mean other.

Should be:

Channel

src/channels.c:287

Channel

src/service.c:173

Channel

src/dvr/dvr_db.c:2052

Channel

src/dvr/dvr_autorec.c:947

Channel

src/dvr/dvr_timerec.c:582

And for other also should be separate.

History

- File bug.jpg added

#2 - 2015-06-22 20:38 - Jaroslav Kysela

I fixed the 'Select <something> ...' issue in v4.1-272-g1396f62 . Not sure about others...

#3 - 2015-06-22 20:55 - Piotr Kuchciak

But 4.1.272 is not available. Latest is 4.1.271

#4 - 2015-06-22 22:29 - Piotr Kuchciak

Ok i update to 4.1.276 and still is wrong.

For example for DVR Failed Recording.

Show me on the bottom page: "Brak nie udane nagrania do wyświetlenia" but should display "Brak nie udanych nagrań do wyświetlenia".

But when i change string "nie udane nagrania" this change also change name tabs... from "Nie udane nagrania" to "nie udanych nagrań".

We must separate every string... not group in translation. Separate can me to translate to every context text.
