Revision b7a0a8a0 - 2015-09-22 15:38 - Jaroslav Kysela

implement IP blocking feature, fixes #3088

History

#1 - 2015-09-18 04:23 - cilin dro

IP is for the client does not have access

#2 - 2015-09-18 08:48 - Jaroslav Kysela

It should already work. Just define access entries per IP address/network and then you may enter the connection limit per IP. Don't forget to remove the wildcard (*) entry.

In what version is available?. I use TVH V 3.9. Can you give me an example of how to limit by IP. can i use username, password and ip to limit connection.

#4 - 2015-09-19 10:43 - B C

look here:

http://tvheadend.org/projects/tvheadend/wiki/Access_configuration

#5 - 2015-09-19 19:24 - cilin dro

the limitation of ip to which I refer is as a blacklist. Adding ip for not allow acces. In tvh you can only assign an IP to connect.

#6 - 2015-09-19 19:28 - cilin dro

This is in case of lots of clients have de same user and pass

#7 - 2015-09-19 20:52 - Jaroslav Kysela

- Subject changed from limitation by IP address to ACL: block specified IP address/network

#8 - 2015-09-19 21:05 - Jaroslav Kysela

- Target version set to 4.2

#9 - 2015-09-22 17:38 - Jaroslav Kysela

- Status changed from New to Fixed

- % Done changed from 0 to 100

Applied in changeset [tvheadend|b7a0a8a032ede8703c05c33a5091d06cec1f90aa](#).
