<b>Target version:</b>	4.2		

#### Description

Please implement additional 'Tuners' tab on Status page. Please include there information about all tuners:

- if it is IDLE or BUSY
- actual signal quality and SNR if BUSY
- current BER and cumulative UNC for all devices since last TVH start
- Service that is using BUSY card
- maybe other columns

Above statistics would tell if there is any tuner idling, how much of them are busy and finally, if there are a lot of UNC on one of them, suggesting that the device (cable or whatever) is broken.

##### #3 - 2015-10-12 21:46 - Jaroslav Kysela

- Target version changed from 4.4 to 4.2

##### #4 - 2015-10-12 22:25 - Rafal Kupiec

I have just upgraded to 4.1-599~g1b682a4-dirty and I don't see requested information on Status page. What is more, now TVH shows 'unknown' instead of SNR and signal quality for my DVB-T tuners.
