

Tvheadend - Feature #3225

Epggrab control on muxs of auto iptv

2015-10-30 07:55 - Mario D

Status:	Fixed	Start date:	2015-10-30
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	4.2		

Description

It would be useful to control the default state of epggrab of new automatically created muxs of an automatic IPTV network. Such muxes usually lach EPG and this would prevent unuseful activations of the stream.
