Status:	Fixed	Start date:	2015-10-31
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	IPTV	Estimated time:	0.00 hour
Target version:	4.2		
Description			
hello Everyone, Tvheadend have a feature of recording a live tv (iptv). I want to ask that is there any way to play that recorded stream as a channel from TV option(as it were located in our local system only).			

Associated revisions

Revision 493f458c - 2015-11-13 17:01 - Jaroslav Kysela

IPTV: add pause support for the correct input data timing, file:// seems working, fixes #3240

You mean a static contents ? You can do already this using pipe:// and ffmpeg. Otherwise I don't understand how you like to select the recordings which should be broadcasted.
