

Tvheadend - Bug #3348

tvheadend crash

2015-11-26 21:26 - Nathan McAullay

Status:	New	Start date:	2015-11-26
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Crashes	Estimated time:	0.00 hour
Target version:		Affected Versions:	
Found in version:	4.1-690~gcf03d9a		
Description			
<p>Hi there, tvheadend is a stable performer for me, but two days ago it crashed expectantly. I have it running under a docker within openmediavault. The logs showed the following</p> <p>I have recompiled tvheadend from git just now, and see if the problem persists. I've not seen too many crashes in the past, so am not sure if it will occur again.</p> <pre>[2015-11-24 21:05:36.725 [WARNING] TS: AU-BNE/177.5MHz/7 Digital: MPEG2VIDEO @ #1025 Continuity counter error (total 1) 2015-11-24 21:14:30.486 [INFO] dvr: entry b393dc096ec1c6613f1eb61063f3a50c "Major Payne" on "7mate" starting at 2015-11-27 18:42:30, scheduled for recording by "192.168.1.15" 2015-11-24 22:18:20.005 [INFO] subscription: 001B: "DVR: The X Factor Live" unsubscribing from "7 Digital" 2015-11-24 22:18:20.009 [INFO] dvr: "The X Factor Live" on "7 Digital": End of program: Completed OK 2015-11-25 01:00:00.001 [INFO] mpegts: 177.5MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #0 (192.168.1.15) 2015-11-25 01:00:00.001 [INFO] tvhdhomerun: tuning to t7qam64:177500000 2015-11-25 01:00:00.009 [INFO] subscription: 001C: "" subscribing to mux "177.5MHz", weight: 100, adapter: "HDHomeRun DVB-T Tuner #0 (192.168.1.15)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 01:10:00.001 [INFO] subscription: 001C: "" unsubscribing 2015-11-25 02:00:00.000 [INFO] mpegts: 184.5MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #0 (192.168.1.15) 2015-11-25 02:00:00.000 [INFO] tvhdhomerun: tuning to t7qam64:184500000 2015-11-25 02:00:00.008 [INFO] subscription: 001D: "" subscribing to mux "184.5MHz", weight: 100, adapter: "HDHomeRun DVB-T Tuner #0 (192.168.1.15)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:01.000 [INFO] mpegts: 177.5MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #1 (192.168.1.15) 2015-11-25 02:04:01.000 [INFO] tvhdhomerun: tuning to t7qam64:177500000 2015-11-25 02:04:01.005 [INFO] subscription: 001E: "epggrab" subscribing to mux "177.5MHz", weight: 4, adapter: "HDHomeRun DVB-T Tuner #1 (192.168.1.15)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:01.005 [INFO] mpegts: 226.5MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #0 (192.168.1.14) 2015-11-25 02:04:01.005 [INFO] tvhdhomerun: tuning to t7qam64:226500000 2015-11-25 02:04:01.013 [INFO] subscription: 001F: "epggrab" subscribing to mux "226.5MHz", weight: 4, adapter: "HDHomeRun DVB-T Tuner #0 (192.168.1.14)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:01.013 [INFO] subscription: 0020: "epggrab" subscribing to mux "184.5MHz", weight: 4, adapter: "HDHomeRun DVB-T Tuner #0 (192.168.1.15)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:01.013 [INFO] mpegts: 219.5MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #1 (192.168.1.14) 2015-11-25 02:04:01.013 [INFO] tvhdhomerun: tuning to t7qam64:219500000 2015-11-25 02:04:01.017 [INFO] subscription: 0021: "epggrab" subscribing to mux "219.5MHz", weight: 4, adapter: "HDHomeRun DVB-T Tuner #1 (192.168.1.14)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:01.017 [INFO] mpegts: 191.625MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #0 (192.168.1.13) 2015-11-25 02:04:01.017 [INFO] tvhdhomerun: tuning to t7qam64:191625000 2015-11-25 02:04:01.024 [INFO] subscription: 0022: "epggrab" subscribing to mux "191.625MHz", weight: 4, adapter: "HDHomeRun DVB-T Tuner #0 (192.168.1.13)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:01.024 [INFO] mpegts: 529.5MHz in AU-BNE - tuning on HDHomeRun DVB-T Tuner #1 (192.168.1.13) 2015-11-25 02:04:01.024 [INFO] tvhdhomerun: tuning to auto:529500000 2015-11-25 02:04:01.029 [INFO] subscription: 0023: "epggrab" subscribing to mux "529.5MHz", weight: 4, adapter: "HDHomeRun DVB-T Tuner #1 (192.168.1.13)", network: "AU-BNE", service: "Raw PID Subscription" 2015-11-25 02:04:10.014 [INFO] subscription: 0023: "epggrab" unsubscribing 2015-11-25 02:04:10.042 [ALERT] CRASH: Signal: 11 in PRG: /usr/bin/tvheadend (4.1-690~gcf03d9a) [07ce3c4332ac9f3882d23f291e2c00e3e088153cd] CWD: / 2015-11-25 02:04:10.042 [ALERT] CRASH: Fault address 0xd0 (Address not mapped) 2015-11-25 02:04:10.042 [ALERT] CRASH: Loaded libraries: /usr/lib/libdvdnvo.so /usr/lib/libdvbapi.so /usr/lib/libucsi.so /lib/x86_64-linux-gnu/libssl.so.1.0.0 /lib/x86_64-linux-gnu/libcrypto.so.1.0.0 /lib/x86_64-linux-gnu/libz.so.1 /usr/lib/liburiparser.so.1 /usr/lib/x86_64-linux-gnu/libavahi-common.so.3 /usr/lib/x86_64-linux-gnu/lib avahi-client.so.3 /lib/x86_64-linux-gnu/libdbus-1.so.3 /lib/x86_64-linux-gnu/libdl.so.2 /lib/x86_64-linux-gnu/libpthread.so.0 /lib/x86_64-linux-gnu/libm.so.6 /lib/x86_64-linux-gnu/libc.so.6</pre>

History

#1 - 2015-11-26 22:22 - Jaroslav Kysela

Could you reproduce this with latest ? I'm sorry, but it's too old version.

#2 - 2015-11-28 23:51 - Nathan McAullay

Will do, i now have 4.1-1047~g851aebb installed, and will see if it crashes.
TVH rarely crashes (i've been using it for years), so if nothing turns up in the new version, can you close this report?
