- Status changed from New to Rejected

The /playlist/satip/channels contains m3u playlist which can be used on slave for import.

#2 - 2021-07-02 15:06 - Retro Fan

I tried this URL to get an M3U playlist with SAT>IP format URLs, but it doesn't contain SAT>IP urls.

Expected format:

#EXTINF:-1 Channel

rtsp://192.168.xxx.xxx:554/?freq=410&msys=dvbc&sr=6900&mtype=256qam&pids=0,16,17,20,2000,2001,2101,2011

or

<http://192.168.xxx.xxx/?freq=410&msys=dvbc&sr=6900&mtype=256qam&pids=0,16,17,20,2000,2001,2101,2011>

Format in M3U file:

#EXTINF:-1 logo=http://192.168.0.205:9981/imagecache/152,Channel

<http://192.168.xxx.xxx:9981/stream/channelid/701402572?profile=pass>

How can we get SAT>IP format?
