Description			
Hi,			
I found useful the status bar of the UI with values like "Storage space" and "Time", but I missing the "Uptime" of the process.			
Can you add it?			
Thank you!

Hi again!

It's difficult to add this? I like to know in the UI the uptime of the server. At time, it's only possible reading the logs!

Tahnk you for this great software!
