<b>Description</b>			
<p>Hi, fine on PCs but buggy on Android mobiles: Main page, select filter to select only e.g. "channel 1". Now I only see some few lines, less than 20 but variable, of EPG/shows. Pressing reload-button below adds some more lines, but never all. There's no option to scroll down, no option to change pages. I simply see only very few EPG lines. I use Chrome for Android.</p>
