

Tvheadend - Bug #4200

time missed on passed events when disabling/enabling DVR autorec

2017-01-27 15:48 - g siviero

Status:	New	Start date:	2017-01-27
Priority:	Normal	Due date:	
Assignee:	Adam Sutton	% Done:	0%
Category:	PVR / DVR	Estimated time:	0.00 hour
Target version:		Affected Versions:	
Found in version:	4.1-2403		

Description

When I modify or disable/enable an existing autorec entry (DVR/autorecs), recording events are added on the "Upcoming/Current recordings", but also on the "Failed Recordings".

As you can see from the log, also passed events are scheduled for recording, ending up on the failed section:

```

```

I don't know if this is a wanted behaviour, but I find it quite strange.

I think only events "from now on" should be added when enabling an autorec entry.

The option "Periodically save EPG to disk" is enabled (every 1 hour), but I don't know if this is related.
