

Tvheadend - Bug #4204

Listening on ports does not work when ipv6 is disabled

2017-01-28 20:06 - Yv Gl

Status: New	Start date: 2017-01-28
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected Versions:
Found in version: 4.0.9	
Description	
If started on a system with ipv6 disabled, Tvheadend does not listen at all on the ports (--http_port and --htsp_port)	
If you want to reproduce it, boot your system with the kernel parameter <code>ipv6.disable=1</code>	
As soon as I remove this parameter, it works as expected.
