

Tvheadend - Bug #4317

Bouquets aren't processed unless relevant EPG grabber is enabled

2017-04-12 01:12 - Mark Clarkstone

Description			
I noticed this after helping someone get setup on IRC, log here			
<hr/>			
Bouquet data isn't processed by tvheadend unless the relevant EPG grabber is enabled, I (and the guy in the above log) both experienced this for freesat. This can be quite confusing for new users.			
I'll make a note of it in the docs. However, could a page be added to the wizard or something that'll let the user setup the OTA grabbers? smile.png
