

Tvheadend - Feature #4376

Transcoding with burn in DVBSUB

2017-05-16 20:53 - saen acro

Status:	New	Start date:	2017-05-16
Priority:	Normal	Due date:	
Assignee:	John Törnblom	% Done:	0%
Category:	Transcoding	Estimated time:	0.00 hour
Target version:	999		

Description

Is there a option to burn-in dvb subtitles in video when transcoding
When used webtv-vp8-vorbis-webm there is not possible to use subtitles

mkv: WEBM format supports only VP8+VORBIS streams (detected DVBSUB)

af course, if there is an option to select in web player, will be perfect,
but for now stream filter will do that
