

Tvheadend - Bug #4405

Only audio on IPTV channels

2017-05-30 20:00 - Andreas Fornberg

Status:	New	Start date:	2017-05-30
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	IPTV	Estimated time:	0.00 hour
Target version:		Affected Versions:	
Found in version:	Both 4.2.x & 4.3.x versions		
Description			
I have a lot of channels that often only opens with audio of some reason. Maybe something to do with audio is first track before the video?			

History

#1 - 2017-05-30 20:09 - Andreas Fornberg

It looks all fine. If build-in matroska works, kodi should work too. Ask the kodi support or reorder the video stream in ffmpeg.

I have same problem with VLC so it's not just Kodi.
The stream works directly in both Kodi and VLC but not when using TVheadend.

#4 - 2017-05-30 21:10 - Andreas Fornberg

I tried use -map options but that didn't make any difference.

#5 - 2017-05-30 21:19 - Jaroslav Kysela

Activate elementary stream filter (just add an entry which matches everything for video with USE action). TVH will reorder streams itself.

Same thing so seems it's something else than order.
Strange thing is the log shows the video and looks like any other stream that works.

Do you see the issue with vlc and matroska tvh output?

#8 - 2017-05-31 10:28 - saen acro

I'm not sure is it connected, but when try to play 4K h265 stream in VLC with **pass** profile.
I see outgoing stream on tvh, see incoming stream with same speed ~25mbps on client but VLC recognize only audio
Tested on Astra 19.2 4K channels, some of them are with AAC and other are with Mpeg2 sound if this is connected somehow.

#9 - 2017-05-31 12:27 - Jaroslav Kysela

[Sean Sean](#) acro: S19.2E/12343.5H/PEARL TV 4K UHD - no issue at all with the pass or matroska profile. It looks like a vlc issue on your setup.

Yes it's same issue with VLC and it uses pass.
I tried matroska profile too and it was same.
If i open the stream directly without tvheadend it works in both Kodi and VLC.

#11 - 2017-05-31 16:42 - Andreas Fornberg

If i open the MPEGTS stream directly and not pipe i am only getting this and nothing more.

```

```
2017-05-31 16:38:16.095 [WARNING]:subscription: 000C: service instance is bad, reason: No input detected
```

Are you sure that the input is mpegts? If yes, give me '--trace iptv,httpc'.

Yes it's same issue with VLC and it uses pass.

The pass muxer does not modify the input stream. Could you attach the original stream (cca 30 seconds)?

#13 - 2017-05-31 17:33 - Andreas Fornberg

I found the problem i think or maybe it's in good mood right now.

I changed links to hls:// to <http://hls> for streamlink and after that it worked but most streams works with just hls:// so it's strange.

But the problem with some streams directly without pipe is another issue and yes it's mpegts stream but probably something in it that tvheadend don't like.
