

## Tvheadend - Bug #4539

### 'Channels EPG data is used by' not working

2017-08-22 01:01 - M. Bergmann

<b>Status:</b>	Fixed	<b>Start date:</b>	2017-08-22
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Adam Sutton	<b>% Done:</b>	100%
<b>Category:</b>	EPG - Grabbers	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected Versions:</b>	
<b>Found in version:</b>	4.2-stable, Build: 4.3-334~g7db25fa		
<b>Description</b>			
<p>'Channel / EPG' --&gt; 'EPG Grabber Channels' lists all channels for which an internal xmltv-grabber exists. I wan to edit the configuration of an epg grabber channel, adjusting that the channels epg data is used by two TV-channels (one is SD, the other one HD-resolution). I confirm the change with 'save' (or also with 'apply'), but just one the two chosen channels is saved. Doesn't matter if I am calling the dialog box or if I am editing it directly in the main screen (column: 'Channels').</p>

epg channel mapper: fix the wrong channel list save, fixes #4539

#### History

##### #1 - 2017-08-22 09:56 - g siviero

I can confirm that with Tvheadend 4.3-210~g7644886-dirty if I select another channel from the drop-down list "Channels" of the tab "EPG Grabber Channels" only the last selected channel is saved.

Example:

Module "OpenTV: Sky UK"

ID: opentv-skyuk-1019

Channels: CNN HD

If I add "CNN" and save, then only CNN remains on the "Channels" column.  
Then if I add again "CNN HD", then only CNN HD remains.

Fixed in v4.3-344-gc349525b2 . I will do a cherry-pick to 4.2, too.
