Target version:			
Description			
<p>"Use fuzzy mapping if merging same name" for service mapping works like a charm.</p> <p>May be one can add this functionality to the "channel mapping options" in the bouquets tab?</p> <p>Here I let automap my channel over bouquets.</p>			

Associated revisions

Revision e953ea74 - 2017-11-16 13:53 - Em Smith

channel: Allow fuzzy name matching for bouquets. (#4714).

Issue: #4714.

Revision 05b5e927 - 2017-11-16 13:53 - Em Smith

channel: Allow merging on bouquet. (#4714).

Previously the merging of channels with the same name on a bouquet did not work since we explicitly excluded these channels from the merge logic.

So we now allow finding channels on a specific bouquet and merging and fuzzy merging them.

Issue: #4714.

History

I'll take a look at the weekend. There's an existing drop-down selection box for mapping options so I see no harm in adding this (and presumably [#4715](#)) to bouquet mapping.
