

Tvheadend - Feature #4765

Add Custom HTTP headers field on network

2017-12-04 12:55 - David jrm

Status:	New	Start date:	2017-12-04
Priority:	Normal	Due date:	
Assignee:	John Törnblom	% Done:	0%
Category:	Muxers	Estimated time:	0.00 hour
Target version:	4.6		
Description			
It would be great to have the Custom HTTP headers field on Networks as well, so anything set there would be propagated to all muxes under related network. This is specially useful when the Network source change and update muxes as it could retain the custom http header, and not removed like it is working currently			
Thx			

History

#1 - 2017-12-04 16:17 - Jaroslav Kysela

- Target version set to 4.4

#2 - 2021-02-20 22:32 - Flole Systems

- Target version changed from 4.4 to 4.6
