Target version:	4.6		
Description			
Hi,			
Could you consider adding a button to the Autorec page, that is only active when an autorec is selected (as it is already the case for the Edit button) and that would list the upcoming recordings found by the selected autorec.			
This way, a user could rapidly check whether a specific autorec has some hits, instead of going through the potentially long list of upcoming recordings.			
Thanks in advance.			

History

#1 - 2018-01-30 19:03 - Jaroslav Kysela

- Target version set to 4.4

#2 - 2018-01-31 17:48 - Ludi K.

Thanks for putting it on the ToDo list.

#3 - 2021-02-20 22:32 - Flole Systems

- Target version changed from 4.4 to 4.6
