

## Tvheadend - Bug #4946

### TvH crashes approx. 1 Minute after start of stream

2018-02-16 23:26 - M. Bergmann

<b>Status:</b>	Fixed	<b>Start date:</b>	2018-02-16
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	John Törnblom	<b>% Done:</b>	100%
<b>Category:</b>	Streaming	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected Versions:</b>	
<b>Found in version:</b>	4.3-1075~g671fc9c		
<b>Description</b>			
Hello,			
approx. 1 minute (sometimes 4-5 minutes) after the start of a tv-stream within Kodi, the stream gets interrupted and Kodi shows the message "can not reach server".			
Stream also gets interrupted with TvHClient on an android device.			
'Systemctl Status tvheadend.service' of TvH gives the error message: "Unit entered failed state / Failed with result 'core-dump'", after that tvh-service restarts.			
I am using Ubuntu 16.04 LTS and TvH 4.3-1075~g671fc9c and Digibt R1 with the original firmware.			

### History

#### #1 - 2018-02-17 00:17 - M. Bergmann

- File tvh4.log added

#### #2 - 2018-02-17 03:37 - M. Bergmann

well, after adding "+epg,+epgdb,+epggrab" to the debugging output I assume it is the same issue as [#4945](#)...

#### #4 - 2018-02-18 01:12 - a a

Same here on a raspberry pi running raspbian stretch with both versions 1075 and 1076. I've regressed to 1049 which has no such server disconnection issues.
