

Tvheadend - Bug #4970

IPTV limit double/not respected

2018-02-25 10:00 - J Smith

Status: Fixed	Start date: 2018-02-25
Priority: Normal	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version:	Affected Versions:
Found in version: tvheadend_4.3-1117	
Description	
Just upgraded to tvheadend_4.3-1117, from 1090, seems the IPTV input streams limit is not respected - I had/have it set to 3, when running a scan on 1117 I saw 6 scans in the Status.	
Will collect more data later, when (she) rescinds the remote.

IPTV: take network limits for all IPTV threads, fixes #4970

History

#1 - 2018-02-25 13:00 - Jaroslav Kysela

Oops. I forgot to restrict the limit per input. The new code creates multiple input threads so the network limit is per thread. You may set number of IPTV threads to 1 in the base config to keep the previous behaviour until I resolve it.

The option is a checkbox, not a number that can be changed!
