

Tvheadend - Feature #5011

Add "tvg-chno" tag to M3U playlist output

2018-03-19 23:53 - dj bloc

Status: Fixed	Start date: 2018-03-19

Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version: 4.4	

Description

I'm using Kodi SimpleIPTV client to connect to Tvheadend backend (I don't want the recording functionality provided with HTSP client)

An additional tag has been added to the SimpleIPTV client that allows it to use the same channel numbering as the Tvheadend.

This additional tag has been available in the Kodi 17.X branch.

Thanks. Tested and works as expected.

May I request this change be included in the 4.2 branch?

Another thing that is important is "group-title" too.

That's right, there are already few petitions associated at this time.
