<b>Target version:</b>		<b>Affected Versions:</b>	4.4
<b>Found in version:</b>	HTS Tvheadend 4.3-1252~g595fd17-dirty		

#### Description

Hello all,

After about a month I was able to trim the tree that was between my dish and Eutelsat 9B. Unencrypted channels work fine but PowerVU is failing... After troubleshooting oscam-emu for more than a couple of hours now oscam is finding the key, but TVHeadEnd seems unable to open the stream. I've added capmt trace for reference:

```

Jun 24 13:19:59 pvr-1.lhr.corrairello.net tvheadend20722: descrambler: cannot decode packets for service "AFN|prime Pacific"

```

Can you confirm if this is a TVH issue or an Oscam issue? I'm using the latest oscam-emu and tvheadend from about two weeks ago. I'm available in irc (sgtpepper) to troubleshoot.

## History

### #1 - 2018-06-24 19:39 - Nicolas C

Just a quick update, I updated to the latest master, and after some serious juggling with OSCAM-EMU, I'm 90% sure it should be decoding. I'm get keys via autoroll, and it's finding EMMs, though tvheadend just throws errors. I've updated a capmt log (hopefully cleaner!). While this shows oscam-emu is answering from cache:

```

```

## #2 - 2018-06-24 19:46 - saen acro

Are you use osemu or [oscam with emu](#)  
there is some updates last days

## #3 - 2018-06-24 19:54 - Nicolas C

Oscam Emu compiled last night from SVN with the oscam patches from master.

## #4 - 2018-06-24 20:40 - Nicolas C

Adding descrambler,cwc

```

#### #5 - 2018-06-29 19:21 - Petar Ivanov

Same here, not work after AFN change something in encryption.

```
2018-06-29 20:19:18.796 descrambler: cannot decode packets for service "AFN|prime Atlantic"  
2018-06-29 20:19:28.823 descrambler: AFN|prime Atlantic stream key[1225] is not available  
2018-06-29 20:19:28.823 descrambler: cannot decode packets for service "AFN|prime Atlantic"
```

#### #6 - 2018-07-02 19:32 - Petar Ivanov

@Jaroslav

after your suggestion in IRC to remove multiple from data/conf/descrambler config file for AFN powervu channels with CSA scheme start work, but multipid broke DES scheme for powervu channels on 1W, any way to make to work both DES and CSA ?

I tested on enigma2 receiver like VU+ and Zgemma wich support powervu and both work AFN on 9E and DES powervu on 1W.
