I wonder whether bug [#5154](#) is not a duplicate of this bug.

I am creating an xmltv file with the tool `tv_grab_zz_sdjson_sqlite`. After its creation, I do an import by using the `tv_grab_file` mechanism of `tvheadend`: it results in a crash of `tvheadend`.

I am using version 4.4.20180702 (66d6161c56) of `tvheadend` on a Synology.

not sure.

btw in the mean time i setup a second machine that runs 4.3-1252~g595fd174f-dirty and Linux 4.17.5-1-ARCH

I run the same grabbers there as above on my other machine and no trouble at all, works just fine, so could be some stuff in ubuntu (not sure what OS the others running into issues with) that is messing with it.

#12 - 2018-07-26 10:57 - Jaroslav Kysela

- Status changed from New to Fixed

- % Done changed from 0 to 100

Applied in changeset [tvheadend|0ba08961db923501cdb9d0e6f7618b40c580d3d8](#).

#13 - 2018-07-26 19:34 - Bastian Kleinschmidt

it's still crashing, same error.

To confirm, i am also getting TVH crashes when I am creating an xmltv file using `tv_grab_zz_sdjson_sqlite`

#15 - 2018-08-16 10:01 - Dan Poz

on the HTS version of `Tvheadend` 4.3-1292 ~ g9b9ee6859 the error is repeated

#16 - 2018-09-27 12:10 - Nicolas Rioja

- File `guia_epg.xml` added

Hi,
I'm starting to have the same error in my `Tvheadend` with version: **HTS `Tvheadend` 4.3-1305~g771080aa7**
Maybe it's not the latest version, but I would like to share with you my log just in case you have some answers.
