Found in version:	4.3-1273~g610c6fa74		
Description			
Hi,			
I'm not getting the correct RTSP port when trying to import the server on the client (e.g. second tvh or minisatip) by desc.xml.			
I expected the client pulls the port which as defined external RTSP port (in tvh server). Instead it pulls the internal RTSP port (9983 in this case).

Is function

Force RTSP announcement of the external (NAT) ip:port: enabled?

#2 - 2018-07-27 10:30 - Markus Wölfer

yes, I tried it in both states. disabled and enabled. Result is the same
