<b>Description</b>			
It would be a nice feature to have "other broadcast times" to be shown under the "Broadcast Details" for a program under EPG.

ui: Add alternative/similar broadcast buttons, fixes #5335, #5336

Add two buttons to EPG and DVR info dialogs, one to show related broadcasts and one to show similar broadcasts. From this dialog, you can then select an entry to record the episode.

Main changes are to return a sorted list from the api and display this in live grid so we get comet updates.

Main api change is to share some epg config so it can be used in the new dialog.

Issue: #5335, #5336.
