

Tvheadend - Bug #5342

Requesting /images/channels/xxxx.png returns invalid HTTP Status Code

Description	
I tried requesting /images/channels/xxxx.png but when that file does not exist, I am getting an invalid response code:	
<pre>http: x.x.x.x: HTTP/1.1 GET (1) /images/channels/xxx.png -- 1</pre>	
Something returns 1 there instead of 404 or 200 (or any other valid HTTP Status code).
