

Tvheadend - Bug #5354

Crash does not cause recordings to be marked as failed

2018-11-26 22:40 - Flole Systems

Description As described in my previous issue I had a crash of tvheadend today. For some reason the recordings that were started before the crash and continued afterwards have not been marked as failed. I would expect that a restart/crash causes them to be marked as failed because there is data missing.
