

Tvheadend - Feature #5639

Implement Wireshark Plugin/Definition for HTSP

2019-05-25 00:59 - Flole Systems

Status:	New	Start date:	2019-05-25
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
It would be great to have an HTSP Parser for Wireshark to allow tracking down issues easier. I assume the Wireshark guys and girls won't do the implementation so it has to come from us.

+1

Who's the hero to do it?

Is there any documentation available for the network protocol (besides the code `tongue.png`)?

HTH,
/HXZ

How would your idea be on time give me some specific information and I'll see what can be worked on

and of course when more functions have the system will be better and more people will use it that simple
