

Tvheadend - Feature #5652

Disable EPG scan by default for IPTV

2019-06-10 15:42 - Mario Gidi

Status:	New	Start date:	2019-06-10
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	IPTV	Estimated time:	0.00 hour
Target version:			
Description			
Can you disable (or create setting on networks tab) EPGSCAN by default for iptv. The default setting is Enable(Auto) and this uses up 1 iptv stream searching for epg (which is not there)

+1

some one else also ask for this.

#2 - 2019-06-10 22:07 - Flole Systems

Feel free to submit a PR, then someone will have a look at it and make a decision.

You can disable epgscan on a per-network basis. Works fine here, never scans IPTV stuff.

So do you really need this feature? I don't.

HTH,
/HXZ
