<b>Description</b>			
<p>The Electronic program guide contains thousands of items by default. It is a bit funny while i am interested in only like 6 TV programs.</p> <p>So i am surprised that it is currently not logicaly made to preserve my filters and i always have to waste my time filtering out what i need to see.</p> <p>I want the interface remember my last filter until i click "Reset all" button which already exist.</p>
