

Tvheadend - Bug #5930

user config doesn't force DVR profile

2020-07-23 19:36 - Luis Alves

Status:	New	Start date:	2020-07-23
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected Versions:	
Found in version:	latest git master		
Description			
I have a user configuration entry that has a specific "DVR configuration profile".			
When that user creates recordings via Kodi, the DVR configuration is set to "(default config)" instead of the one ticked in the user config.

Please specify what version you are using (the exact version number). Latest git master will be inaccurate on the next commit. This will be helpful in case someone looks at the issue in a few months.
