

## Tvheadend - Bug #5933

### 'Autorec maximum count' wrong/bad description

2020-07-26 09:17 - Luis Alves

<b>Status:</b>	New	<b>Start date:</b>	2020-07-26
<b>Priority:</b>	Low	<b>Due date:</b>

<b>Target version:</b>		<b>Affected Versions:</b>	
<b>Found in version:</b>	latest git master		
<b>Description</b>			
<p>My recordings were being deleted and I had no clue why... then looking at the logs found out that the cause was the "Autorec maximum count" option.</p> <p>The description of the 'Autorec maximum count' option is: "Autorec maximum count (0=unlimited) : The maximum number of entries that can be matched."</p> <p>And here: <a href="https://tvheadend.org/boards/5/topics/33540?r=33541#message-33541">https://tvheadend.org/boards/5/topics/33540?r=33541#message-33541</a>: "Autorec maximum count (0=unlimited) : Maximum matched EPG entries per autorec rule."</p> <p>This is wrong and misleads the user to think that the autorec config will only match/schedule no more than X recordings in the EPG search when in fact it has nothing to do with "matching" or EPG entries.</p> <p>The help/description for this option should be more like: "Autorec maximum number of recordings to keep in disc."</p> <p>Issue when this was added: <a href="https://tvheadend.org/issues/3187">https://tvheadend.org/issues/3187</a></p>
