

Tvheadend - Bug #5987

PVR profiles dosnt work as it should

2020-12-21 17:27 - Rene Wagler

Status:	New	Start date:	2020-12-21
Priority:	Normal	Due date:	
Assignee:	Adam Sutton	% Done:	0%
Category:	PVR / DVR	Estimated time:	0.00 hour
Target version:		Affected Versions:	
Found in version:	4.3-1915		
Description			
expexted: TV records should be placed in the folder which is declared in the users profile.			
actually: TV records are always stored in default profiles recording folder no matter which user create the record			

History

#1 - 2020-12-21 17:35 - Rene Wagler

the records are created with Kodi

#2 - 2020-12-22 00:02 - saen acro

Recording location is in default recording profile.

Permissions are very strang in this part.

Also **User A** cannot watch records of **User B** without permissions to write.

#3 - 2021-01-28 18:58 - Alfred Neumann

Same here but only for direct and time recordings, in case of timer (auto recording) the pvr profile is stored correct. Also the user from kodi is stored correct.

#4 - 2021-05-05 18:40 - Alfred Neumann

No changes in version 4.3-1961, no matter which dvr configuration is defined in the user profile after creating the recording, the DVR configuration is always the "Default Profile". however, users and owners are correctly transferred.
