<b>Description</b>			
<p>Hi, as the title says I need help with setting up a port forwarding rule in my Fritzbox in order to reroute port 9983 to 554 so more SAT&gt;IP clients can communicate with Tvheadend SAT&gt;IP server.</p> <p>Can you extend the help information in Tvheadend how to do this?</p> <p>As testing setup I'm using VLC as SAT&gt;IP client entering the URL from Tvheadend. Until now VLC cannot open the stream, probably because of port 9983 which has to be 554 for VLC.</p> <p>rtsp://192.168.0.205:9983/?freq=410&amp;msys=dvbc&amp;sr=6900&amp;mtype=256qam&amp;pids=0,16,17,20,2000,2001,2101,2011</p> <p>I cannot install Tvheadend as root, so I need port forwarding. This is an example of how it looks like in my Fritzbox.</p> <p>192.168.0.205 is the device where Tvheadend is installed.</p> <p>Thanks!</p>

Waiting for your PR once you figured it out.

##### #2 - 2021-06-21 12:31 - Retro Fan

Examples for other routers as it should be re-routed from port 9983 to 554 are welcome as well.

##### #3 - 2021-06-21 12:34 - Flole Systems

It doesn't matter which Router is used, the forwarding should be the same on every Router. Please don't add specific documentation for a specific router, only general information on what needs to be done.

##### #4 - 2021-06-21 12:37 - Retro Fan

I know and will do, but you can't help?

##### #5 - 2021-07-02 12:49 - Retro Fan

Never mind, as workaround I'm now using a Raspberry Pi as Tvheadend server and now I can use port 554 without problems ;-)
