Category:	HTSP	Estimated time:	0.00 hour
Target version:		Affected Versions:	
Found in version:	4.3-1979~g8fc2dfa7e		

Description

On some channel HTSP dont pass DVBSUB packets and dropping it

On Kodi Client has Subtitle inconsistency after research i play same stream on Kodi and on Http Vlc and result Vlc Play all but in same time as Vlc show subtitle i dont receive any SUB packet on HTSP or receive other count.

In Parser log:

```
Oct 11 12:52:05 tvserver tvheadend6279: parser: deliver (pkt stream 4 DVBSUB pcr 3621924564 dts <unset> pts <unset> dur 0 len 0 err 1)

I have the same problem, running Build: 4.3-1979~g8fc2dfa7e (2021-10-16T23:18:42+0000). If i select Use http for streaming in Kodi's Tvheadend

addon configuration, subtitles are correctly displayed.

I can try to fix it but need someone to help with debug?
and second bug on web cannot upload mux file

#3 - 2021-10-25 23:20 - Aurel Sandu

Any news ? I have 7 channels affected by this, and one of them is History Channel that i watch mostly
