Description			
<p>In the TVH webui, the 'Digital Video Recorder'/'Finished Recordings' page has a Play button for each programme. And there's a Play button on the Details popup on the EPG page for each programme.</p> <p>But there are no Play buttons on the 'Digital Video Recorder'/'Upcoming/Current Recordings' page to watch a programme after it has started recording. It seems a strange omission, so I suggest adding them.</p>
