<b>Category:</b>	Service Mapping	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected Versions:</b>	
<b>Found in version:</b>	HTS Tvheadend 4.3-2009~g1295dd2be		
<b>Description</b>			
<p>The freesat "England" bouquets from 11425H are found in Bouquets list, but they do not auto-map to channels when enabled.</p> <p>The "BSkyB" bouquet do automap OK as expected.</p> <p>I noticed that the source for the BSKyB bouquets appears as: dvb-bskyb://dvbs,28.2E,1000,1</p> <p>But the source for the Freesat "England" bouquets appears to be corrupted: instead of 28.2E (as expected), there is a number 214748364.7E which happens to be 0xCCCCCC in hex. Maybe because of this they do not auto-map? dvb-freesat://dvbs,214748364.7E,0118,1</p> <p>The screenshot shows the BSKyB "28.2E" bouquet mapping (Services = Services seen), but the Freesat bouquets wit the corrupted orbital position are shown not mapping (Services = 0)</p>
