

Tvheadend - Feature #698

Ability to ignore EIT EPG

2011-09-12 11:28 - Hadley Rich

Status:	Fixed	Start date:	2011-09-12
Priority:	Normal	Due date:

Category:	EPG	Estimated time:	0.00 hour
Target version:	2.13		
Description			
Hi,			
We have some poor quality EIT being broadcast here (New Zealand) and decent XMLTV, it would be great if there was an option to disable gathering EPG from EIT and choose just to use XMLTV instead.			
I discovered where I could add a trivial hack to do this and posted here;			
http://www.lonelycoder.com/redmine/boards/12/topics/161			
It would be great to have this as an option in the GUI rather than having to recompile though.			
Thanks for the great software.			

History

- Status changed from New to Fixed
- Target version set to 2.13
- % Done changed from 0 to 100

As far as I can see a option on the service has been added in the merge of pull request 36 on 21-08-2011.

Wow great, thanks very much that's exactly what I was looking for. I should have been more up to date.
